- 0 Bennett Road box culvert fishway project is located on Enoggera Creek – a tributary of the Brisbane River in Brisbane
- 0 Enoggera Creek is a major waterway in Brisbane’s western suburbs and has up to 11 native freshwater fish species
- 0 the crossing is a barrier to fish migration under most flow conditions and is located within valuable habitat areas in the creek
- 0 project developed through collaboration with Dept of Infrastructure and Planning & Brisbane City Council – 2010 completion

<b>CLIENT AND PARTNERS</b>	Department of Infrastructure and Planning	Brisbane City Council
<b>PROJECT OBJECTIVES</b>	x provide for upstream fish passage at crossing x retain integrity and function of culvert structure	x enhance ecological value of stream corridor x provide demonstration site for community
<b>SCOPE OF WORK</b>	x concept design of fishway facility x design and development of culvert fishway	x specialist construction guidance for fishway facility x
